REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: allowance of claims 1-3, 7-9, and 12 is indicated because the prior art of record does not show or fairly suggest a resistor apparatus having a flexible gas permeable tubular containment casing fixed to at least one of the lead wires and substantially enclosing a resistor body and spaced from the resistor body to prevent it from sliding relative to the resistor body, wherein the casing has sufficient tensile strength and temperature resistance to contain broken species of the resistor body occurred when being overheated while permitting the escape of gas for avoiding pressure build-up within the casing as amended in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
